NORWAY AND VICINITY

Oxford Lodge No. 18 F. and A. M. will hold Ladies' Night Friday evening, Feb. 29, at Masonic Hall, Norway. Supper will be served at 7 o'clock to be followed by a social. Raymond H. Eastman, Fred E. Smith and Charles F. Ridlon are the committee on invitations.

David H. Lebroke, aged 80, of Waterford, attended the joint installation of Lake Temple Pythian Sisters and Pennevasse Lodge K. of P. Thursday evening. He passed the night with his son, Eugene Lebroke and returned home, Friday. Mr. Lebroke is one of the oldest members of Pennevasse Lodge but an advanced age has kept him from the meetings in recent years.

Leonie Gilbert has closed her home on Water street and is with her sister, Mrs. Joseph Fortier at East Otisfield. She plans to return in the spring.

Some thirty charter members have been obtained for an auxiliary to the Local Order of Moose, known as the Women of Mooseheart Legion. Mothers, wives, sisters or daughters of members in the Moose are eligible to membership in this order. Returns of necessary documents is expected before Friday when action on the matter can be taken at the next meeting of the Moose.

Clarence W. Merrill commenced this week as night fireman and watchman at the C. E. Gunnison & Sons Co. mill. He is boarding with his daughter, Mrs. Grunville Pushard.

Fred S. Brown of Portland was in town on business Tuesday at the Brown, Back Co. store.

Lon Hall is yardman at Cummings' upper mill where a large quantity of pine timber is being hauled onto the ice ready for the spring sawing.

Norway Lodge Local Order Moose have a class coming in at their regular meeting Friday evening at Woodman Hall. A buffet lunch will be served after the work. W. E. Everett and Daniel Dallas are the committee in charge and a good time is assured. The lodge was organized five years ago next March and more than 200 members in good standing are enrolled.

Mrs. James Gush of Portland was a week end guest recently of Mrs. Hattie Everett, Water street.

The W. C. T. U. will meet with Mrs. M. O. Ballou February 11th Roll call Patriotic Quotation. Subject, current events in temperance.

Clarence Stevens of Auburn visited his father, Elden Stevens, Saturday and Sunday. He is foreman at the G. W. Bent Co. at Lewiston and has a responsible position.

The Barton Reading Club met Thursday afternoon at the home of Mrs. Emma Jones on Deering street.

Mr. and Mrs. George L. Curtis entertained at a dinner party Saturday evening. Dr. and Mrs. Herman L. Bartlett, Hon. and Mrs. Albert J. Stearns and Mr. and Mrs. Frank Brett.

The annual meeting of the Norway Board of Trade will be held at Beals Tavern, Friday evening, Feb. 13. Supper will be served at 7.15 followed by an election of officers and the transaction of important business. Pres. L. M. Carroll, Sec. Donald B. Partridge and other members are endeavoring to make this an informal gathering and an attractive social event.

Mother's sugar bowls are empty. She had a present of a cattle fair prize citron and in preserving it exhausted her supply. She is now in the market for more sugar. The citron came from Charles Kidson's store, but the sugar did not. Where she got it I do not know as women are now buying sugar much like the men used to get whiskey, "on the sly."

Supt. T. C. Morrill attended the convention at Augusta held in the interests of the senior citizens. He was chosen to serve on several important committees.

Every room at Beals Tavern was occupied Tuesday night. Out of town patrons attending the clerks' ball made this well known hotel their headquarters.

Freeman Smith, son of "Copy" Smith, expect to finish the brick chimney at Beals Tavern about Saturday, weather permitting. The chimney is tiled lined and rises on the Cottage side of the house. It is a fine sight to see. The intense cold has delayed a job which would have been completed a week or more ago.

Daisy Chase underwent a surgical operation at the Central Maine General Hospital, Friday afternoon. Encouraging reports of her condition have been received and an early recovery is expected.

Edward A. Luck will become the new baggage master and clerk at Norway station after Tuesday. Oliver J. Foss, the present incumbent, has resigned to accept a position at the L. M. Smith Co. clothing store.

Norway high basketball quintet got to Livermore Falls, Friday for a return game that evening. A rough trip is predicted. The game scheduled here with Gould's Academy, Feb. 13, is an uncertain proposition as the team may refuse to give a return date. Anyhow, there will be a game at Norway Opera House. Possibly Island Pond, the "unbeatable quintet" may try conclusions at that time. Manager Stone will secure something to do at all events.

Novell Andrews and Fred M. Anderson of Bisbetown attended the clerks' ball, Tuesday evening. Mr. Andrews is a musician of local fame and one of the "Andrews boys" known in Waterford and vicinity wherever dancing has been on the program during the past twenty years. The visitors were the guests of Fred M. Davis and family.

Grant Abbott and Fred Noble were appointed delegates from the local organization to attend the County meeting of the New England Milk Producers' association, which is to be held at South Paris Grange hall, Saturday.

Since the ground has been covered with snow, the birds are so hungry that they are nipping the buds from the trees, which means injury in the spring. Attention has been called in several papers to the people feeding the birds, and if crumbs are thrown out to them it will save not only the birds, but the trees also. The juncos are so tame and so hungry they will hop on the shoulders of some pedestrians who stop to watch them. The birds will eat not only bread crumbs but scraps of meat, baked potatoes and in fact much refuse that is ordinarily thrown into the fire.

Vivian M. Akers is in New York and Boston on a week's business trip. On his return, he will visit his father-in-law, Prof. Addison E. Verrell, and his uncle, Prof. Sydney E. Smith, both of New Haven, Conn.

If you must have it, then use our want column. You will be likely to find it among your friends. Let them know your wants.

Wallace H. White wishes readers notified that he will supply the usual quantity of government vegetable and flower seeds if they indicate their desire to him. Write to Washington, D. C.

BASKET BALL

Norway High 38; Bridgton Academy 33. In a fast moving game at North Bridge Friday evening, Norway High School won the contest by a narrow margin during the last few minutes of the second period. The teams had been working hard to neck and fighting hard for a decision. So close was the battle neither could gain points for a safe lead. True, fortunately had a keen eye and tossed the winning baskets which clinched the game for his outfit. The score:

Norway High 31; M. C. I. 12. Speed, clean passing and roughness was featured in the fight at Norway Opera House, Saturday evening when the Norway High School quintet clobbered 31 points against the Maine Central Institute gamblers, who were held to a 12 point score made on four foul baskets and four from the foul line. Some game it was to watch. Every minute was used to the limit except on numerous occasions when time out indicated a collision or a loss of some part of the playing togs.

The visitors were a heavy outfit and when under way endeavored to make a dent in the home lightweight. This method of cutting squats early in the game put the Norway quintet wise to a mode of procedure if the goal was to be reached. The home bunch were equal to the occasion and went after the ball with speed and accuracy which surprised not only the M. C. I. players, but a large crowd who had assembled to watch the fun.

After the first break away, Norway forced baskets in rapid succession. A break neck speed developed as the first period advanced and the playing was a flying hot article right off the fritter fryer. Both teams in the first period were penalized frequently with the visitors more partial toward that weakness and therefore the greatest offenders.

Chances at the basket during the first twenty minutes gave Norway a two to one record over her opponent, as the ball was in the M. C. I. territory the largest part of the time and kept red hot by rapid handling. Score at end of first half, N. H. S. 20, M. C. I. 6.

As the second period opened a convincing argument was sent out by the visitors that they expected to overcome the lead. Roughness commenced and the home bunch met the charge valiantly. Referee Austin jumped right into the fray and followed every play closely. Fouls were called repeatedly on both teams, yet it placed no brake on the headlong speed. The outfits were well matched on this stuff with Norway the better with wind and snaky tactics. Thompson received an elbow in an orb which filled his vision with stars and sent him to the rear. Rice went in during the last fifteen minutes. Attack and counter attack was worked by both sides. Norway pulled off several brilliant stunts in the last five minutes and juggled the pill to an extent that had the visitors running wild like ants disturbed from their domicile. The visitors were completely off their underpinning with a fog bank hanging about head high.

Summing up the business, an unusual number of fouls were called. M. C. I. was penalized twelve times and secured seven baskets from the line as a result. Norway came eight times under the ban and White caged four as his share from the sentence. Purinton was everywhere and proved his worth at tackling. He blocked several plays which were on the direct road to the station named "points." True did clever basket shooting and was prominent in other departments. Thompson, Crocker and Rice worked every minute and handled the ball cleanly. Their defensive work was first-class. White for the visitors was a prominent huskie and fairly accurate on the foul line. Martin put up a good fast game but failed to locate the ring. True was a valuable player. In brief, Norway penetrated their defenses to the last line.

The Maine Central Institute quintet is a fast organization and gave the local fans one of the best exhibitions of heavy artillery basketball seen here this season. The score:

1477.42 Acres of land situated in Oxford County, Maine, Charles H. Adams, Fred H. Bartlett, Adm'r. & Chandler Buzzell, George A. Allen, [No. 570 AT LAW] J. Waldo McIntire and others.

To the Honorable Clarence Hale, Judge of the District Court for the District of Maine.
The petition of the United States brought by John F. A. Merrill, United States Attorney for said District of Maine, acting under the instructions of the Attorney General and at the request of the Secretary of Agriculture, respectfully shows as follows:

That, by an Act of Congress approved August 1, 1888, (25 Stat. L. 357), it is provided: "That in every case in which the Secretary of the Treasury, or any other officer of the Government has been, or hereafter shall be, authorized to procure real estate for the creation of a public building or for other public uses, he shall be, and hereby is, authorized to acquire the same for the United States by condemnation, under judicial process, whenever in his opinion it is necessary or advantageous to the Government to do so. And the United States Circuit or District Court in which the condemnation is in such real estate is located shall have jurisdiction of proceedings for such condemnation."

That, by an Act of Congress approved March 1, 1911, (36 Stat. L. 961), among other things it is provided as follows:

"Sec. 3. That there is hereby appropriated for the fiscal year ending June thirtieth, nineteen hundred and eleven, the sum of one million dollars, and for each fiscal year thereafter a sum not to exceed two million dollars for use in the examination, survey, and equipment of lands located on the headwaters of navigable streams or rivers, and the provisions of this section shall expire by limitation on the thirtieth day of June, nineteen hundred and fifteen."

"Sec. 4. That a commission, to be known as the National Forest Reservation Commission, consisting of the Secretary of War, the Secretary of the Interior, the Secretary of Agriculture, and two members of the Senate, and two members of the House of Representatives, to be selected by the Speaker, is hereby created and authorized to consider and pass upon such lands as may be recommended for acquisition by the Secretary of Agriculture, and to fix the price or prices, at which such lands may be purchased, and no purchase shall be made of any lands until such lands have been duly approved for purchase by said commission."

"Sec. 6. That the Secretary of Agriculture is authorized and directed to examine, locate, and range such lands as he may deem desirable for acquisition by the Secretary of Agriculture, and to report to the National Forest Reservation Commission on the results of such examination: Provided, That before any lands are acquired by the Secretary of Agriculture, a report made to the Secretary of Agriculture, showing that the control of such lands will promote or protect the navigable streams or rivers, shall be submitted to the Secretary of Agriculture."

"Sec. 7. That the Secretary of Agriculture is hereby authorized to purchase, in the name of the United States, any lands as he may deem desirable for acquisition by the National Forest Reservation Commission at the price or prices fixed by said Commission: Provided, That no deed or other instrument of conveyance shall be accepted or approved by the Secretary of Agriculture until the title to such lands has been approved by the National Forest Reservation Commission, and the funds necessary for the payment for said lands are available when needed and said lands are necessary for the purposes of said Act or Acts."

That the National Forest Reservation Commission provided for in Section 4 of said Act, has been duly appointed and organized, and the Government to acquire title to said lands for the United States by condemnation under judicial process.

That, by an Act of Congress, approved August 10, 1912, the third section of the Act approved March 1, 1911, referred to in the second paragraph of this petition, was amended in the following language, to-wit:

"And in order to carry out the purposes mentioned in section three of the Act of March first, nineteen hundred and eleven entitled 'An Act to enable any state to cooperate with any other state or states, or with the United States, for the protection of the watersheds of navigable rivers, and to provide for the acquisition of lands for the purpose of conserving the navigability of navigable rivers,' there is hereby appropriated and made available until expended so much of the maximum sum mentioned in said section for the fiscal years ending June thirtieth, nineteen hundred and fifteen, inclusive, and shall remain unexpended at the close of said fiscal year."

That the said appropriations contained in Act, approved March 1, 1911, were by said Act approved August 10, 1912, continued in force until the present time for the purposes therein expressed; and that the Secretary of Agriculture has caused the same to be made by Act of Congress approved August 11, 1916, in the following language, to-wit:

"That in order to carry out the purposes mentioned in section three of the Act of March first, nineteen hundred and eleven entitled 'An Act to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers,' there is hereby appropriated and made available until expended so much of the maximum sum mentioned in said section for the fiscal years ending June thirtieth, nineteen hundred and sixteen, inclusive, as amended, there is hereby appropriated and made available until expended, the sum of \$1,000,000 for the fiscal year ending on the thirtieth day of June, nineteen hundred and sixteen, and \$2,000,000 for the fiscal year ending on the thirtieth day of June, nineteen hundred and eighteen."

The lands which it is necessary for the United States to acquire in this proceeding under judicial process for the purposes hereinbefore set out are situated in Oxford County, Maine, and are known as follows:

First, the Charles H. Adams tract lying and being in the town of Stonham and more particularly described as lots 2, 3 and part of lot 1, 8rd range, 2nd division by Nevers, containing according to survey, 271.48 Acres.

Second, the Jonathan Bartlett heirs tract lying and being in the town of Stonham, being lots 2, 3 and 5 in the 8th range, 2nd division by Nevers, 1001.64 Acres.

Third, the Fred H. Bartlett heirs tract lying and being in the town of Stonham, being lots 5 and 7, and the north half of lot No. 6 in Range "A", 3rd Division by Sherman, containing according to survey, 204.30 Acres.

GUARANTEED**Woman Suffered in Silence**Health Poor, Beauty Fast Fading Away—
Made Believe She was Well

A business woman writes: "There must be lots of women who feel as I did. I suffered in silence many times on account of my pride, but now I know that a good laxative is essential to good health. I neglected my health trying to keep cheery and pretending I was all right when I wasn't. I had terrible pains, was 'grouchy' and my headaches almost killed me with pain, and worst of all from my viewpoint I had a sallow, unbecoming complexion which was not helped by face powders. Why didn't I try to cure myself rather than pretend? After taking Dr. True's Elixir, I now know that a laxative was what I needed. Dr. True's Elixir is mild and pleasant to take, and works just right for me. My complexion cleared up—bright and ruddy—blemishes vanished and every one remarked how much better I looked."

—Mrs. E. J. B., New Auburn, Me.

The root of many of the evils of sickness is the bowels, a very vital part of the human body.

A cold, a fever, diseases of the like can be remedied at once, providing the operation of the bowels is normal—the first and most important relief can be had by giving a Laxative, but be sure it is the proper kind.

Most everybody in these days of quick action and strife, forget their health. The laboring people bolt down their meals, often go to bed right after eating, and wake up in the morning restless, force down a breakfast and then are distressed all day.

An Outdoor Worker says: "I could not puzzle out what made me feel so bad. My good, home-cooked meals didn't even taste good, and I had headaches and was grouchy. I never thought it was constipation, but now I know, for I took four little doses of your Dr. True's Elixir and it fixed me up grand. I will never be without it again in case of constipation."—F. B. B., Allston, Mass.

The bowels need attention first and always. Rich foods, improper cooking, irregular and quick eating, lack of exercise can all be offset providing a mild laxative is taken regularly.

A Business Man Writes: "The continual rush of office details and the short meal hours I get, together with, I think, restaurant foods, has simply knocked my system all to pieces. I felt lousy, and had no appetite until I took Dr. True's Elixir, as a Laxative. It is a great thing. No one should neglect their bowels."

—Boston Business Man.

Dr. True's Elixir, the Family Laxative and Worm Expeller, with an established reputation since 1851 (over 68 years) has accomplished the seemingly impossible. It has relieved thousands upon thousands of sufferers from constipation, which causes so many terrible disorders.

Dr. True's Elixir will benefit every one: The laborer who eats heartily and quickly, the office boy or girl who eat "fancy" and irregularly; elderly people who can't digest well and children who suffer from intestinal parasites.

Dr. True's Elixir means a big saving to health and pocketbook. At all drug-gists. Three sizes, 40c, 60c, \$1.00. Buy the large size.

"No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

NO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys—well, that's another story—that's Velvet.

And 'cause why?

'Cause Velvet is brought up—not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. See, taste, smell, feel the "real tobaccoess" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

WHY TELL A LIE?

Why must people go through life living and telling a perpetual lie? Why not tell the truth?

For instance:

If your neighbor is lazy, and his wife earns the living, and his children are hungry and half clothed, why not tell him so?

If you think public officials are inefficient and grafting, why not tell them so?

If Miss Pertness has her face smeared with powder, why wait for the wind to blow it off? Why not tell her she is a freak?

If you have been making love to your stenographer, and your wife suspects you, why lie about it? Why not tell the truth?

If you want your friend to endorse your note, and you know you can never pay, why not tell him so?

If Miss Dimple looks like a scarecrow, and you want to marry her for her money, why tell her she is a sylph, and an angel, and all of that rot? What's the matter with the truth?

If you are selling a spavined old horse, and you know it will fall to pieces before the purchaser can lead it home, why not tell him so?

If you owe the grocer, and the butcher, and the editor, and you never expect to pay them, why not tell them so when you place your next order?

If you drop a nickel in the collection box, and the dining room to the public at 6:30 to be followed by entertainment in the vestry at 8 o'clock.

Supper Com.—Gladys Rich, Katherine Flint, Josephine Chase, assisted by Mrs. Percy Nevins.

The Weight of Your Voice

Don't be backward about speaking a good word for this town, costs you nothing, and its value is beyond measure.

You may imagine that the weight of your individual voice is little avail, but you are in error.

Every good word counts—as does every bad one.

Your individual opinion has great weight with some, and reasonable weight with others. There is no one upon whom it does not leave its impress.

When you point out the beauties and the advantages of this community, and the sterling qualities of its citizens, you stamp these facts upon the minds of those with whom you converse, and they in turn transmit them to others.

In this way the good work becomes an endless chain, always traveling, always

boosting, always beckoning to the stranger or to come where good words and deeds abound, and where all ones are seldom heard or seen.

Every voice has its weight, and yours is not the least of all.

Let these great mills feed your live stock
In determining a feed for your horses and cows or hogs one of the most important points is to secure a feed which meets the requirements of these different animals. If you do not exercise care in choosing feeds you will turn a profit into a loss, even though you have good stock and good quarters. Badger Monopoly Feed is a carbohydrate stock feed. It is milled by an individual patented process from scoured whole corn, oats and barley. There are no other ingredients in Badger Monopoly Feed, and it is the good qualities of corn, oats and barley are made more available to the animal by our special milling process. Badger Monopoly Feed is relished by horses largely on account of its palatable variety. It produces real energy, and being bulky insures freedom from colic and many other horse troubles. When Badger Monopoly Feed is fed to cows it constitutes an ideal carbohydrate portion of the ration because its bulkiness and natural sweetness make it a desired, satisfying ration for the cow. Badger Monopoly Feed is also used with high protein concentrates, such as Krause Dairy Feed, Badger Sweet Cud, both of which are 24% protein. It will prove particularly economical for mixing tankage for hogs or fed without additions to hogs. One sack of Badger Monopoly Feed will convince you that you are losing money to be without it.
